TOWN OF MIDDLETON, MASSACHUSETTS**

Renewable Energy Choice Rate

M.D.P.U. #90

AVAILABILITY:

The following voluntary rate shall be applicable to all MELD Customers, as defined herein, that request to enroll in this rate.

RATE CHARGES:

The object of the Renewable Energy Choice Rate is to provide all MELD Customers the opportunity to contribute to the retirement of NEPOOL GIS compliant renewable energy certificates (RECs) or equivalent. This rate is based on the REC market under ISO-NE, to ensure participating customers' energy is 100% renewably sourced.

This voluntary rate shall add, to each monthly bill, an amount equal to the total kWh billed during the month multiplied by the market price of certified renewable energy certificates, as follows:

Renewable Energy Charge = monthly kWh usage x market price of certified renewable energy certificates.

TERMS:

Charges for renewable energy will appear as an item on a customer's electric bill and this rate schedule shall be subject to MELD's TERMS AND CONDITIONS.

CONDITIONS:

Customer hereby agrees to add this rate for a minimum period of 12 months, unless the customer's right to occupy the premises ceases during such period. This rate is subject to change due to the market conditions within ISO-NE. All funds under this rate will be used to retire certified renewable energy certificates or equivalents.

Effective Date: February 1, 2023
